

WORKSTAR® SCRUTINEER

365nm UV Pistol-Grip Inspection Light

NEW!

Product No. MXN03365

The WorkStar® SCRUTINEER 365nm UV Inspection Light is a compact, lightweight, and rechargeable pistol-grip ultraviolet inspection tool designed for precision and power. This versatile tool is the ultimate companion for professionals in adhesive curing, leak detection, and non-destructive testing.

- **High-Intensity UV Power:** Emits a powerful 2800mW radiant flux with up to 28,000 μ W intensity at 15" for unmatched inspection performance.
- **Precision Targeting:** Features a red laser dot just above the UV beam for fast, accurate alignment—even in bright daylight.
- **Optimized UV-A Spectrum:** Focused 365nm ultraviolet output with minimal white light, perfect for accurate visual targeting.
- **Rechargeable & Ergonomic:** Lightweight, pistol-grip design with built-in rechargeable battery for all-day professional use.
- **Versatile Application Tool:** Perfect for adhesive curing, leak detection, and crack testing in NDT (non-destructive testing) environments.

Function Guide:

- **Power On:** Press and hold the rear switch for 1.5 seconds. The indicator light will turn on, signaling the unit is in standby mode.
- **Momentary UV Mode:** While in standby mode, press and hold the front switch to activate the UV light. Release to turn it off.
- **Constant UV Mode:** While in standby mode, quickly double-click the front switch to turn the UV light on continuously. Press once more to turn it off.
- **Power Lock (Off):** To exit standby mode and lock the power, press and hold the rear switch for 1.5 seconds until the indicator light turns off.
